Follow us on   

1. Enter the Operation System

Note: On the keypad, '*' means deleting or canceling, '#' means confirmation.

And '#' can be as doorbell (ring twice).

1.1 Wake up the lock

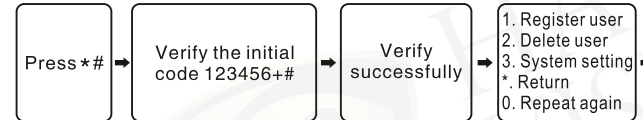

Touch the keypad area to wake up the lock.

1.2 Register admin

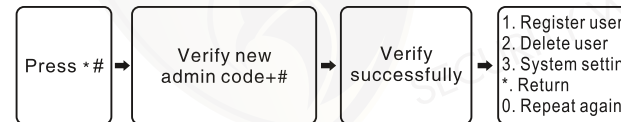

After waking up the lock, press '*+#' to enter the management menu.

The default initial code is 123456, then press '#' to enter the operation system.

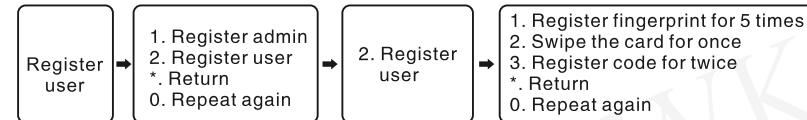

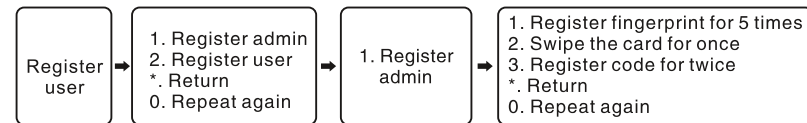

For security, please register admin as soon as possible.

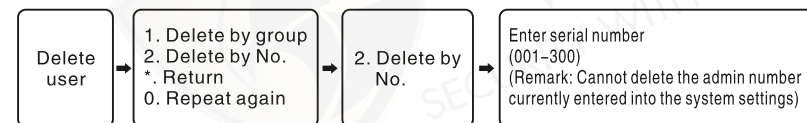

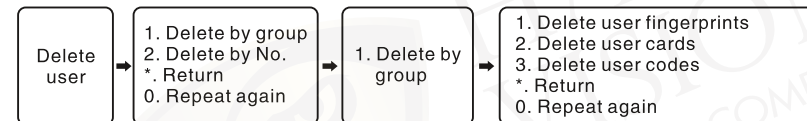

2. Operation Guide (After registering admin)

2.1 Register user

2.2 Delete user

2.3 System setting
